Magazines like Popular Mechanics and Popular Science once published articles on how to build very capable shop tools like tilt arbor table saws, arc welders, and drill presses. Those articles are still available on-line through Google Books. The photo shows plans for building a 10 inch tilt arbor table saw.

In the 1980s, the magazine featured more and more home repair, remodel and woodworking projects while featuring fewer articles on general technology and automotive projects. A long-running feature of **Mechanix Illustrated** was "Mimi," a shapely young woman dressed in skimpy overalls with blue and white vertical stripes; and, in the early sixties, a matching railroad engineer's cap (later discontinued).
