The most important aspect of health record keeping for medical massage therapy is the ability to document measurable outcomes as a result of care. Our value is tied to effectiveness—if we can chart progress in the patient ' s condition, primary care providers are more likely to refer their patients to us.

This is Why Records Are Vital for Massage Therapists

Massage therapy is a licensed profession in most states. Medical massage practitioners must be licensed or otherwise credentialed as massage therapists. Most states do not make a distinction between licensing for professionals who practice medical or clinical massage and those who simply practice massage. However, there are exceptions.
