Memento Mori is a novel by Scottish author Muriel Spark published by Macmillan in 1959. The title translates to "Remember you must die", which is the message delivered by a series of insidious phonecalls made to the elderly Dame Lettie Colston and her acquaintances. The blurb on the back of my paperback copy by Stephen Schiff of the New Yorker calls Memento Mori "A complex, beautiful, and terrifyingly insightful novel about old age." This is spot on! I was surprised to see that Muriel Spark was only 41 when she penned this because it seems to really get at the heart of being in your seventies and eighties.

Most of them are affluent Londoners and most are related to each other by love, blood, friendship or past romance.

Memento Mori is another one of Spark's greatest hits. First published in 1959, it can be roughly described as revolving around a set of senior citizens engaged against each other in blackmail, extortion, and secrecy—all while a mysterious caller informs nearly all of them: "Remember you must die."

A group of aging friends realizes that age has not brought wisdom and that they must face death as best they can.

On a once burgeoning, highly cultured human colony laid waste by a plague, a handful of survivors struggles against a sexually seething artificial intelligence that has taken control of their minds. By the author of *Cybernetic Jungle*.

Poignant, hilarious, and spooky, *Memento Mori* addresses old age In late 1950s London, something uncanny besets a group of elderly friends: an insinuating voice on the telephone reminds each: Remember you must die. Their geriatric feathers are soon thoroughly ruffled, and many an old unsavory secret is dusted off.

"Long ago in 1945 all the nice people in England were poor, allowing for exceptions," begins *The Girls of Slender Means*, Dame Muriel Spark's tragic and rapier-witted portrait of a London ladies' hostel just emerging from the shadow of World War II. Like the May of Teck Club itself—"three times window shattered since 1940 but never directly hit"—its lady inhabitants do their best to act as if the world were back to normal: practicing elocution, and jostling over suitors and a single Schiaparelli gown. The novel's harrowing ending reveals that the girls' giddy literary and amorous peregrinations are hiding some tragically painful war wounds. Chosen by Anthony Burgess as one of the Best Modern Novels in the *Sunday Times* of London, *The Girls of Slender Means* is a taut and eerily perfect

Where does art start or reality end? Happily loitering about London, c. 1949, with the intent of gathering material for her writing, Fleur Talbot finds a job "on the grubby edge of the literary world" at the very peculiar Autobiographical Association. Mad egomaniacs writing their memoirs in advance — or poor fools ensnared by a blackmailer? When the association's pompous director steals Fleur's manuscript, fiction begins to appropriate life.

“A perfect book”—and basis for the Maggie Smith film—about a teacher who makes a lasting impression on her female students in the years before World War II (Chicago Tribune). “Give me a girl at an impressionable age, and she is mine for life!” So asserts Jean Brodie, a magnetic, dubious, and sometimes comic teacher at the conservative Marcia Blaine School for Girls in Edinburgh. Brodie selects six favorite pupils to mold—and she doesn’t stop with just their intellectual lives. She has a plan for them all, including how they will live, whom they will love, and what sacrifices they will make to uphold her ideals. When the girls reach adulthood and begin to find their own destinies, Jean Brodie’s indelible imprint is a gift to some, and a curse to others. The Prime of Miss Jean Brodie is Spark’s masterpiece, a novel that offers one of twentieth-century English literature’s most iconic
