Emphasizing the relevance of microbiology to a career in the health professions, Burton's Microbiology for the Health Sciences provides the vital microbiology information you need to protect yourself and your patients from infectious diseases.

Containing 57 thoroughly class-tested and easily customizable exercises, Laboratory Experiments in Microbiology, Tenth Edition, provides engaging labs with instruction on performing basic microbiology techniques and applications for undergraduate students in diverse areas, including the biological sciences, allied health sciences, agriculture, environmental science, nutrition, pharmacy, and various pre-professional programs. The perfect companion to Tortora/Funke/Case's Microbiology: An Introduction or any introductory microbiology text, the Tenth Edition features an updated art program and a full-color design, integrating valuable micrographs throughout each exercise. Additionally, many of the illustrations have been re-rendered in a modern, realistic, three-dimensional style to better visually engage students. Laboratory Reports for each exercise have been enhanced with new Clinical Applications questions, as well as questions relating to Hypotheses or Expected Results. Experiments have been refined throughout the manual and the Tenth Edition includes an extensively revised exercise on transformation in bacteria using pGLO to introduce students to this important technique.

The enormous spread of modern microbiology appears to be daunting for many young students pressed for time. This book is written to fulfill the need of a comprehensive, yet student-friendly text. The book fulfills requirements of syllabus for undergraduate medical students as per MCI recommendations covering the subject in four sections: General Microbiology, Immunology, Systemic Microbiology (which includes Bacteriology, Virology and Mycology), and Clinical & Applied Microbiology.

This edition of 'Microbiology' provides a balanced, comprehensive introduction to all major areas of microbiology. The text is appropriate for students preparing for careers in medicine, dentistry, nursing and allied health, as well as research, teaching and industry.
