The Basics: How to Needle Felt (Dry Felting) - YouTube

What is Dry or Needle Felting: This involves using special barbed needles to basically weave the individual fibers together until they form a matted piece of fabric. You can do this by hand with a single needle, or with a tool using multiple needles. There are also very large machines which create felt using hundreds or even thousands of needles.

What is Felting? A Beginners Guide to Wool Felting ...

Needle felting cylinders Cylinders or tubes are perfect for the legs, necks and tails of your needle felted animals. For a cylinder you want the width of the strip of wool to be a little wider than the length of the required finished shape, as it will shrink during the felting process. The process is rather like creating an elongated egg.

Needle felting tutorial - the basic shapes

The solution here is simple. Take a larger size needle (or mid sizes multi needles) (smaller numbers on the needle) and continue to work your piece all over until it becomes much firmer. (See techniques below). If the needle is too big you will start to feel resistance and your piece will scrunch as you work.
