The Nikon SB-700 is a superb medium-sized flash for use on all modern Nikon i-TTL DSLRs. Unlike other flashes, the SB-700 is only designed for current, not older cameras. Nikon calls these the cameras compatible with Nikon's Creative Lighting System (CLS). These cameras are all DSLRs except the D1 series and the D100.

units and has been rated by 1 people with an average of a 7.1. This manual is available in the following languages: English, French.

~~User manual Nikon SB-700 (164 pages)~~

The SB-700 uses an iTTL optical (infra-red) system to communicate exposure information from a camera. This works very

Get Free Nikon Sb 700 Guide

well, with good quality and accurate light production. The drawbacks: the camera's popup flash fires an optical signal that can produce reflections on a background and can cause humans/animals to blink – meaning the subjects have their eyes closed when the actual shot is taken.
