Discover how and where value flows move through the SAP system, and where they sometimes trickle off. You will learn the financial processes in procurement, distribution, and production in detail and how to optimize them for better integration and cost efficiencies. Closing and reporting are also illuminated. The example of a real value-flow project, centered around the introduction of SAP General Ledger, gives you insight into the project management process of working with value flows. Procurement Process Learn the entire purchasing process -- from goods receipt through audit -- and discover the potential for optimization (i.e., interaction between MM and SAP ERP Financials). Sales and Distribution Process Discover in a detailed overview of the sales process how the value flows for accounts receivable and sales revenue are integrated and mapped. Manufacturing Process Gain an in-depth understanding of product costing and planning, cost accounting, and the many possible controlling and costing types.Closing and Reporting Get to know the complete and comprehensive reporting options available in SAP ERP and learn about the added value SAP NetWeaver BW offers for reporting and closing. Sample Corporate Case Study Apply what you've learned immediately as you follow the case study of a fictitious SAP General Ledger implementation and see how a value flows optimization project looks in practice.

* Detailed instructions on configuring SAP ERP Financials module * Examples to clarify the tricky areas in a configuration * Supported by screenshots to explain configuration of SAP financial module

SAP ERP modules are notoriously hard to configure and use effectively without a lot of practice and experience. But as SAP ERP Financial Accounting and Controlling: Configuration and Use Management shows, it doesn't have to be so difficult. The book takes a systematic approach that leads SAP Financial Accounting and Controlling (FICO) users step by step through configuring and using all the program's facets. This approach makes configuration complexities manageable. The book's author,SAP expert, trainer, and accountant Andrew Okungbowa,ensures that both you and your end users are up and running quickly and confidently with FICO. He also provides sound and tested procedures that ensure your implementation works without error. SAP ERP Financial Accounting and Controlling: Configuration and Use Management is in fact the most comprehensive and easy-to-follow SAP FICO configuration book in the market. It incorporates a hands-on approach, with hundreds of screen shots and practical examples, that allows a person without prior configuration training to make SAP FICO ready for use in the enterprise. You'll find that you don't need to be a rocket scientist to grasp the concepts explained and apply them to your work,even when the finances are complicated, such as with the ins and outs of taxes, currency conversions, or special general ledger entries such as down payments or bills of exchange. Providing an in-depth coverage of both configuration and end user procedures, the book covers most aspects of the SAP FICO certification syllabus!SAP's view of the module's key tasks and procedures,including: Configuring and using the general ledger and accounts payable and receivable screens Configuring and completing closing procedures, asset accounting, and financial reporting Configuring global settings and enterprise variables Accounting for both profit and cost centers Creating a house bank Integrating FICO with other SAP modules Taking a jargon-free tone and providing an abundance of examples, Andrew Okungbowa provides a clear understanding of configuration techniques and the breadth of functionalities encompassed by SAP FICO. And as an accountant, Okungbowa understands the needs of end users as well as of those answering to the CIO.
