About. Rainbow Technology's mission is to market specialty products and services to the utility and industrial markets, as well as the Shooting Sports Industry (SSI) nationally and internationally. Rainbow is an important vendor to the telecommunications, electric power, other key utilities, OEM's, contractors, and distributors to these markets. Rainbow seeks niche products and services while continuing to focus on traditional products.

About - Rainbow Technology
Since 1971, Rainbow Technology Corporation has been the provider of specialty products to some of the largest utilities and industries in the world. To meet the standards of these companies, one thing counts above all others: Performance. It's not enough to have "consumer-friendly" labeling or formulas — you must sell products that perform.

Welcome to the Rainbow Technology Online Store
Our History. In October, 1971, Mrs. Steeley originated a chemical start-up business, which later became Rainbow Technology Corporation. The start-up business was initially ran out of her garage with the assistance of her two sons. Over time and with considerable effort, the company slowly, but steadily developed a broad range of products serving the telecommunications, electric power, other key utilities, OEM's, contractors, and distributors markets.

The Rainbow data storage technology claims to use geometric shapes such as triangles, circles and squares of various colors to store a large amount of data on ordinary paper or plastic surfaces. This would provide several advantages over current forms of optical- or magnetic data storage like less environmental pollution due to the biodegradability of paper, low cost and high capacity.
