Posted on May 22, 2009 by Todd Shaffer. As Wayne wraps up his 5 year long series of lectures going through his excellent Systematic Theology, he looks at the varying views of the millennium, final judgment, hell, and the new heavens and new earth. Wayne spends little time on the Post-millennial view because it ` s based on very few and very weak proof-texts.

Response to Grudem, Systematic Theology, Ch. 32. Posted on February 11, 2010 by austinnrogers. Response to Wayne Grudem, Systematic Theology, " Election and Reprobation ". Chapter 32 of Wayne Grudem ` s Systematic Theology appears in the very middle of his expansive textbook. Having read his first eight chapters (on the doctrine of the Word of God), I generally agree with Grudem ` s views on the infallibility of the scriptures.

Tongues, Healing & Prophecy: Grudem Sys Theo. Wayne Grudem tackles the gamut of spiritual giftedness, taking specific classes to focus on the gift of tongues, healing, and prophecy (sometimes inaccurately called a word of knowledge). Wayne does a gracious job of providing a balance of perspectives. He is not a cessationist, but he does have some helpful controlling ideas that should be true of these gifts and their use.

Systematic theology is a science where theologians study the Bible on a particular subject to see what does the Bible say about this topic. There are many books on systematic theology, with many different theological views, positions, and traditions. Many of these books hold the same name, but few are as popular today as Grudem ` s . The book that I ` ve been using as a guide in my posts on systematic theology, Wayne Grudem ` s Systematic Theology (Grand Rapids, Michigan: Zondervan, 1994), takes the position that all final judgment will take place there. He presents evidence that both unbelievers and believers will be judged in it, unbelievers to receive punishment and believers to receive rewards; that angels will be judged in it; and that we will help in the work of judgment.

Doctrine of Justification: Wayne Grudem Systematic Theology. Justification is an instantaneous legal act of God in which he (1) thinks of our sins as forgiven and Christ ` s righteousness as belonging to us, and (2) declares us to be righteous in his sight. Wayne Grudem covers the doctrine of Justification, showing how it is a very practical doctrine, and also tackles some common misunderstandings.

Systematic Theology is remarkable for its extraordinary juxtapositions. It is penetrating but not confusing; forthright and unequivocal but not reckless or overstated; readable and clear but not superficial; biblically grounded, even biblically saturated, but not textually careless or glib; devout and reverent but not uncritical or naïve; practical but not trendy or sentimental; comprehensive but not majoring on minors; a book for the church but not parochial or sectarian.

Not every Christian should go to seminary, but there are certain teachings of the Bible that every Christian must know. Theology is important because what we believe affects how we live. Whether you're a relatively new believer in Jesus or a mature Christian looking for a better understanding of basics of the faith, Christian Beliefs is for you. This readable guide to twenty basic Christian beliefs is a condensation of Wayne Grudem's award-winning book Systematic Theology, prized by pastors and teachers everywhere. He and his son, Elliot, have boiled down the essentials of Christian theology for the layperson and made them both clear and applicable to life. You will learn about the Bible, the characteristics of God, what it means that we are created in the image of God, what God has done for us in Christ, the purpose of the church, and much more. Each chapter includes questions for personal review or group discussion. *These Truly are twenty basic beliefs that every Christian should know. Wayne Grudem is a master teacher with the ability to explain profound truths in simple language. He is a man of deep conviction and theological passion--and those who read this book will be both educated and encouraged in the faith." --R. Albert Mohler Jr., President, The Southern Baptist Theological Seminary, Louisville, Kentucky "Based on Systematic Theology, this summary will certainly help beginners with Christ to get the hang of their faith." --J. I. Packer, Regent College, Vancouver, British Columbia "As Wayne Grudem's Systematic Theology contracts into a compact book, I do not lose my enthusiasm for the truth he loves and the clarity of his words." --John Piper, Bethlehem Baptist Church, Minneapolis, Minnesota

This volume demonstrates a central conviction of the Reformed tradition--that theology must honor the historic witness of the church as catholic while being faithful to the new tasks of the present-day church. It offers selections from Reformed theology, creeds, confessions, and church documents of the nineteenth and twentieth centuries.

Michael Horton ` s highly anticipated The Christian Faith represents his magnum opus and will be viewed as one of—if not the—most important systematic theologies since Louis Berkhof wrote his in 1932. A prolific, award-winning author and theologian, Professor Horton views this volume as " doctrine that can be preached, experienced, and lived, as well as understood, clarified, and articulated. " It is written for a growing cast of pilgrims making their way together and will be especially welcomed by professors, pastors, students, and armchair theologians. Features of this volume include: (1) a brief synopsis of biblical passages that inform a particular doctrine; (2) surveys of past and current theologies with contemporary emphasis on exegetical, philosophical, practical, and theological questions; (3) substantial interaction with various Christian movements within the Protestant, Catholic and Orthodox traditions, as well as the hermeneutical issues raised by postmodernity; and (4) charts, sidebars, questions for discussion, and an extensive bibliography, divided into different entry levels and topics.

Preaching is an integral part of every church service, and its purpose has always been to edify, encourage, and to emphasize the positive effects of coming together as a people of God. Yet there remains an inconsistency between the intended goals of preaching and the subjective perception of the listeners. In this homiletical study, Dr. Enoch Šeba provides fresh insight into the " turn to the listener " model and offers a theologically sustainable warrant/mandate for the transformation of the preaching practice through a stronger involvement of the congregation. While grounding the research in the experience of Croatian Baptists, Dr. Šeba highlights practical suggestions for both listeners and preachers that are transferable across contexts. This important work reveals that preaching can and should be transformed into a truly congregational practice that will affirmatively affect the dynamics of ecclesial life. This book will spark conversations and induce small-scale changes on a variety of levels while bridging the gap between preachers and their listeners.

One of the most contested questions in historical theology concerns John Calvin ` s understanding of the so-called " extent of the atonement. " On a popular level, Calvin ` s name is closely associated with the " limited atonement " stance canonized within the " TULIP " acronym. But did Calvin himself insist upon a strictly particularist view of Christ dying for the elect alone? This study re-examines the evidence in the primary sources, traces the diversity of resulting historical trajectories, and engages the spectrum of secondary scholarship. Undoubtedly, Calvin believed in unconditional election, but he also spoke on multiple occasions of Christ dying for " all " or for " the world "—yet what did he mean? Some may find the conclusions surprising, but all should find them cogently articulated and irenically tempered.

This new edition of Systematic Theology by Wayne Grudem may be the most important resource you can own for helping you understand Scripture and grow as a Christian. The most widely used resource of the last 25 years in its area, Systematic Theology by Wayne Grudem has been thoroughly revised and expanded (all 57 chapters) for the first time while retaining the features that have made it the standard in its field: clear explanations, an emphasis on each doctrine's scriptural basis, and practical applications to daily life. Praise for the second edition: "After a quarter century of remarkable usefulness globally... it remains remarkable. I thank God for this precious gift to Christ's people worldwide." - John Piper "Stands out for its clarity and accessibility." - Thomas R. Schreiner "One of those rare works that can challenge the scholar and instruct the beginner... It is simply indispensable." - Jack Deere With nearly 200 pages of new content and revisions that took several years, this new edition now includes the following distinctive features, making it even better: Updated, fuller analysis of several recent controversies within evangelicalism, including the eternal relationship between the Father and the Son in the Trinity, the question of God's atemporal eternity, the role of women in the church, "seeker-sensitive" churches, miraculous gifts of the Holy Spirit, and contemporary worship music. New, thoughtful critiques of open theism, the "new perspective on Paul," Molinism (or "middle knowledge"), "Free Grace" theology, and the preterist view of Christ's second coming Completely revised, stronger chapter on the clarity of Scripture Completely revised, stronger chapter on creation and evolution, including a longer critique of theistic evolution and an extensive discussion on the age of the earth New discussion of how biblical inerrancy applies to some specific "problem verses" in the Gospels Additional material respectfully explaining evangelical Protestant differences with Roman Catholicism (with extensive interaction with the Catechism of the Roman Catholic Church), Protestant liberalism, and Mormonism Completely updated bibliographies All Scripture quotations updated from RSV to ESV An explanation of why monogenes in John 3:16 and elsewhere should be translated as "only begotten" rather than merely "only" (this is a change from the first edition) A contemporary worship song added at the end of each chapter (while retaining the traditional hymns as well) New discussion on the impassibility of God! An extensive discussion on the eternal submission of the Son to the Father, taking into account controversies in recent years Updated section on contemporary worship music A discussion of recent criticisms of the penal substitutionary view of the atonement Numerous other updates and corrections that have been prompted by letters and emails from people around the world and by interaction with the students Wayne has taught over the last 25 years both at Trinity Evangelical Divinity School and at Phoenix Seminary Part of the brilliance of Systematic Theology over the years has been its simplicity and ease of use. Each chapter follows the same structure. First, there is discussion of the doctrine being considered, such as justification or the Trinity or the deity of Christ. An explanation of that doctrine's biblical support and possible objections follow. Personal application and key terms to know for personal growth are then provided. Chapters also include a Scripture memory passage, references to other literature on the topic, and suggested hymns and worship songs. If you are someone who thinks theology is hard to understand or boring, then this new edition of Systematic Theology will likely change your mind.

In this book, Dr. Matthew Todd looks into the anecdotal reporting of high numbers of Canadian-born Chinese leaving Western Canadian Chinese churches--what is termed the silent exodus. Some of the fastest-growing Canadian churches are Chinese, yet reportedly the highest dropout rates are among Chinese and Asian church adult ministries. This book recommends solutions towards the retention of Canadian-born Chinese adults in Chinese bicultural churches through empowerment. To address retention, the key factors that contribute to a silent exodus are established through qualitative research with participants of diverse church affiliations. Todd examines various models and proposed solutions the Chinese church has used to retain its English-speaking congregants, and gives attention to a theological basis for being inclusive in mission initiatives and for empowerment through passing the leadership baton. Todd makes some recommendations on the new wave of an emerging congregational model that requires negotiation with Chinese church leadership to give power away to English ministry leaders and congregations. He anticipates that this will permit transformational leadership practices that contribute to shalom, community transformation, and lasting congregations.

What does the Bible teach about how to live in today ` s world? Best-selling author and professor Wayne Grudem distills over forty years of teaching experience into a single volume aimed at helping readers apply a biblical worldview to difficult ethical issues, including wealth and poverty, marriage and divorce, birth control, abortion, euthanasia, homosexuality, business practices, environmental stewardship, telling the truth, knowing God ` s will, understanding Old Testament laws, and more.

Starting with a biblical view, The Apostles' Creed 'He Descended into Hell' covers the history of theology by discussing the ideas of Augustine, the liturgy of the Early Church, the role of Christ's decent in Franciscan spirituality and in the theology of Thomas Aquinas. It also asks whether similar theological ideas are present in Judaism. In addition, it gauges the meaning of Christ's descent for today by reflecting on pastoral activities and on computer games. To conclude, a fundamental theological reflection systematizes and summarises all the material present within the volume.
