"This report aims to improve our understanding of the causes of skill shortages, the way businesses respond and the short-term consequences of skill shortages. Responses from small- and medium-sized businesses reveal that skill shortages matter, but that their relationship to firm performance differs according to the nature of the skill shortage. The findings confirm that skill shortages are a complex labour market phenomenon and give rise to complex responses by firms." - NCVET website.

Carbon Pollution Emission Guidelines for Existing Stationary Sources - Electric Utility Generating Units (US Environmental Protection Agency Regulation) (EPA) (2018 Edition) The Law Library presents the complete text of the Carbon Pollution Emission Guidelines for Existing Stationary Sources - Electric Utility Generating Units (US Environmental Protection Agency Regulation) (EPA) (2018 Edition). Updated as of May 29, 2018 In this action, the Environmental Protection Agency (EPA) is establishing final emission guidelines for states to follow in developing plans to reduce greenhouse gas (GHG) emissions from existing fossil fuel-fired electric generating units (EGUs). Specifically, the EPA is establishing: Carbon dioxide (CO<sub>2</sub>) emission performance rates representing the best system of emission reduction (BSER) for two subcategories of existing fossil fuel-fired EGUs-fossil fuel-fired electric utility steam generating units and stationary combustion turbines; state-specific CO<sub>2</sub> goals reflecting the CO<sub>2</sub> emission performance rates; and guidelines for the development, submittal and implementation of state plans that establish emission standards or other measures to implement the CO<sub>2</sub> emission performance rates, which may be accomplished by meeting the state goals. This final rule will continue progress already underway in the U.S. to reduce CO<sub>2</sub> emissions from the utility power sector. This book contains: - The complete text of the Carbon Pollution Emission Guidelines for Existing Stationary Sources - Electric Utility Generating Units (US Environmental Protection Agency Regulation) (EPA) (2018 Edition) - A table of contents with the page number of each section
