If it does not have all of them, you must send a separate document (Plan of Care, POC for short) that does include all the elements to the physician/NPP for their signature. CMS says either a physician/NPP or physical therapist can establish the POC but if the therapist does it then physician/NPP must approve of the plan. That's where the signing off on the plan of care by the physician/NPP affirms that the patient is under their care and they agree with the plan.
