Going through piano chords for beginners, a formula chart is handy as it shows chord inversions.

For example, an A major piano chord will contain A, C#

and E but we can easily re-arrange these notes so that the C# is now the root, then the E and finally the A. This is known as first inversion.

are built on their
root note (the
starting note). The
rest of the notes in
a chord are
determined by the
chord quality.

Chords can be built
