Rapid Review Laboratory Testing in Clinical Medicine ...  
4.0 out of 5 stars Rapid Review Laboratory Testing. Reviewed in the United States on January 25, 2010. Verified Purchase. I have enjoyed reading through this book. It is very similar to Goljan's other book, but in addition this book provides better explanations of important pathology terms, and test done to diagnose patients.

Abbott Labs says its rapid tests can produce false ...  
Some facilities have rapid tests for COVID-19 diagnostic testing. In that case, you may get your results in less than an hour or on the same day that you're tested. Other facilities may have to send the test sample to an outside lab for analysis. If they need to send out the sample, your results may not be available until a few days later.

---

COVID-19 diagnostic testing - Mayo Clinic  
Rapid, point-of-care testing is a critical element of the national strategy for testing, especially to support vulnerable patients, outbreak investigations, and frontline healthcare workers. This test is performed at the same location as where the patient’s sample is collected and it can provide COVID-19 results in under 13 minutes.
