Its distributed approach allows teams to deploy integrated services where required. The API -centric, container-based architecture decouples services so they can be created, extended, and deployed independently.

A sexy standalone novel from New York Times and international bestselling author Elle Kennedy! Three is most definitely not a crowd... Claire McKinley has just experienced every bride's nightmare: the groom is a no-show, and now she must face five hundred guests alone. Furious and humiliated, she seeks help from the most unlikely candidate—her almost-brother-in-law, who promptly whisks her away to his apartment in San Diego, where she can recover her pride in peace and quiet. Dylan Wade is no fan of Claire's, but he can't ignore the jilted bride in her time of need. Bringing her home seems like a good idea—until he remembers his new roommate. Dylan's relationship with Aidan Rhodes is...complicated. And with Claire thrown into the mix, life becomes even more...complicated. Claire is blindsided by her attraction not only to Dylan, but also to Aidan, a man she's just met. Soon they're caught up in an all-consuming sexual storm they can't fight even if they wanted to. But when their hearts get involved, Claire wonders if it can last, or if she's just setting herself up for more heartache. Warning: This book is very dirty. Ménage a trois and man-on-man dirty. Graphic language and explicit sex dirty. Basically? Dirty. You've been warned.

Authoritative, accessible guide features easy-to-use keys covering leaves, twigs, bark, buds, fruit, more. Over 300 pen-and-ink drawings by Maud H. Purdy, noted botanical illustrator. Bibliography.

A frequent contributor to the New York Times magazine, Outside, Salon, and GQ, and a regular on Public Radio International's "This American Life," David Rakoff's debut collection of essays is simultaneously laugh-out-loud funny and take-your-breath-away poignant. David Rakoff is a fish out of water. Whether he finds himself on assignment climbing Mount Monadnock in New Hampshire — donning a pair of Timberlands for his trek, only to realize with horror that "the shoes I wouldn't be caught dead in might actually turn out to be the shoes I am caught dead in." — sitting quietly impersonating Sigmund Freud in a department store window...for a month, or musing on the unique predicament of being undetectably Canadian in New York City ("...what's more spicy than being Canadian, I ask you?"), Rakoff has a gift for exposing life's humour and pathos. Fraud takes us places even we didn't know we wanted to go: expeditions as varied as a search for elves in Iceland, a foray into soap opera acting, or contemplating the gin-soaked olive at the bottom of a martini glass. With the sharpest of eyes, David Rakoff explores the odd and ordinary events of life, spotting what is unique, funny and absurd in the world around him. But for all its razor-sharp wit and snarky humor, Fraud is also,

ultimately, an object lesson in not taking life, or oneself, too seriously.

A woman suffering from anorexia struggles to understand the cause of her eating disorder and, more importantly, becomes determined to stop starving and start living. I haven't tasted chocolate for over ten years and now I'm walking down the street unwrapping a Kit Kat . . . Remember when Kate Moss said, "Nothing tastes as good as skinny feels"? She's wrong: chocolate does. At the age of thirty-three, after ten years of hiding from the truth, Emma Woolf finally decided it was time to face the biggest challenge of her life. Addicted to hunger, exercise, and control, she was juggling a full-blown eating disorder with a successful career, functioning on an apple a day. Having met the man of her dreams, and wanting a future and a baby together, she decided it was time to stop starving and start living. Honest, hard-hitting, and spoken from the heart, *An Apple a Day* is a manifesto for the modern generation to stop starving and start living.

The process of personal growth and transformation seldom happens "by accident"; it is the product of our conscious choices. This book contains 39 powerful lessons of personal change, gleaned from Gandhi's life. It offers us invaluable advice on creating and leading an enlightened life — a more meaningful, purpose-driven, self-aware and socially responsible life. Drawing from a diverse range of fields such as psychology, management, leadership, philosophy and spirituality, Anand Kumarasamy explains and illustrates each of these lessons in language that is

simple, vivid and highly interesting. These lessons are based on timeless principles which, if deeply reflected upon and integrated into our daily lives, can powerfully transform us while positively impacting the world around us.
