convert molten pig iron into steel in large quantities. However, it only became widely available in the 1870s after the process was modified to produce more uniform quality.

## ~~Industrial Revolution - Wikipedia~~

Industrial Revolution, in modern history, the process of change from an agrarian and handicraft economy to one dominated by industry and machine manufacturing. The process began in Britain in the 18th century and from there spread to other parts of the world, driving changes in energy use, socioeconomics, and culture.

One important impact of the industrial revolution (such as the use of coal, iron, and steam) was rapid urbanization, as new and expanding industry caused villages and towns to swell, sometimes into vast cities. The Port of Liverpool, for example, rose from a population of a couple of thousand to many tens of thousands in the space of a century.

Reformation is a related term of revolution. As a proper noun reformation is the reformation. As a noun revolution is revolution.

The masterful account of Britain ' s reshaping as a modern nation In 1530 England was a backward economy. Yet by 1780 she possessed a global empire and was on the verge of becoming the world ' s first industrialized power. This book deals with the intervening 250 years, and explains how England acquired this unique position in history. Esteemed historian Christopher Hill recounts a story that begins

## Read Book Reformation To Industrial Revolution

with the break with Europe before hitting a tumultuous period of war and revolution, combined with a cultural and scientific flowering that made up the early modern period. It was in this era that Britain became home to imperial ambitions and economic innovation, prefiguring what was to come. Hill excavates the conditions and ideas that underpin this age of extraordinary change, and shows how, and why, Britain became the most powerful nation in the world.
