1.2 What is the review question? #section-1-2 Getting the research question right is critical for the success of a systematic review. Review authors should ensure that the review addresses an important question to those who are expected to use and act upon its conclusions. We discuss the formulation of questions in detail in Chapter 2.

### Chapter 1: Starting a review | Cochrane Training

Your marks are calculated using the following equation 2: Overall Score = (1 x Section I + 1 x Section II + 2 x Section III) \u221a 4 Therefore, this means more emphasis is placed on section 3, but it also means you can bolster your score by performing well on the other sections, if you find one section challenging.
