If you want a fresh start i.e. preferring a greenfield approach, a Shell Conversion might be what best for you. It is available for release 7.0 to 7.5 and works like a Remote Conversion using a parallel SAP BW/4HANA landscape. Shell Conversion does not include the transfer and synchronization of existing data sets. Instead at your convenience, you can choose to load data from original sources, load data from original SAP BW system, or simply ignore historical data and start fresh.
