systems and ecological theories, as well as the concept of intentionality from the philosophy of mind, to understand the psychological and social processes of TESOL. One aspect of intentional dynamics is the "ordinary" intentions of individuals to perform particular actions, and of organisations to achieve planned

outcomes. Another aspect is philosophically defined psychological and social forms of intentionality.

Psychological intentionality is understood as what language learners' and teachers' (and other stakeholders') beliefs and emotions are "about" or "directed at".

Social intentionality is the "aboutness"
