With its highly centralized political institutions, Israel is typical of the unitary, nonfederal political systems in the world. On the other hand, with its growing emphasis on federalism, the United States reveals the functions and dysfunctions of the pluralist system. In this provocative book, Frederick Lazin compares the two types of political systems to show how municipalities in Israel, as in the United States, exert considerable influence on implementation of national domestic policies. He argues convincingly that unitary systems have many of the same difficulties that their federal counterparts have in implementing social welfare policies. This study provides a theoretical basis for understanding how administrative institutional system and socioeconomic status variables affect the potential influence of municipalities and make implementation of policies so problematic. It develops a model for policy implementation in unitary systems which then serves as a framework of analysis for a series of case studies of social welfare, education, and health policy in Israel. Comparisons are then made with the federal political system of the United States in which the national government needs the cooperation of local authorities to implement its policies. Reference is made to federal housing policies and programs for low-income Americans. Similarities as well as differences are noted between the two systems in order to reach conclusions about policy implementation regardless of type of political system. The book contributes both to the general literature on policy implementation as well as to the politics of unitary versus federal systems. It provides a unique and important analysis of problems

Wall Street scandals. Fights over taxes. Racial resentments. A Lakers-Celtics championship. The Karate Kid topping the box-office charts. Bon Jovi touring the country. These words could describe our current moment—or the vaunted iconography of three decades past. In this wide-ranging and wickedly entertaining book, New York Times bestselling journalist David Sirota takes readers on a rollicking DeLorean ride back in time to reveal how so many of our present-day conflicts are rooted in the larger-than-life pop culture of the 1980s—from the “Greed is good” ethos of Gordon Gekko (and Bernie Madoff) to the “Make my day” foreign policy of Ronald Reagan (and George W. Bush) to the “transcendence” of Cliff Huxtable (and Barack Obama). Today’s mindless militarism and hypernarcissism, Sirota argues, first became the norm when an ’80s generation weaned on Rambo one-liners and “Just Do It” exhortations embraced a new religion—with comic books, cartoons, sneaker commercials, videogames, and even children’s toys serving as the key instruments of cultural indoctrination. Meanwhile, in productions such as *Back to the Future*, *Family Ties*, and *The Big Chill*, a campaign was launched to reimagine the 1950s as America’s lost golden age and vilify the 1960s as the source of all our troubles. That 1980s revisionism, Sirota shows, still rages today, with Barack Obama cast as the 60s hippie being assailed by Alex P. Keaton – esque Republicans who long for a return to

Eisenhower-era conservatism. “ The past is never dead, ” William Faulkner wrote. “ It ’ s not even past. ” The 1980s—even more so. With the native dexterity only a child of the Atari Age could possess, David Sirota twists and turns this multicolored Rubik ’ s Cube of a decade, exposing it as a warning for our own troubled present—and possible future.
