When, in March 1610, he published his discovery of the lunar surface and the moons of Jupiter in a Latin treatise entitled Sidereus Nuncius, or "The Starry Messenger," he went so far as to dedicate the work to Cosimo, and even named the newly discovered moons the "Medicean Stars," after the Medici family.

Galileo Galilei: The Starry Messenger | SparkNotes

This is a children's book about Galilei, not the actual "Starry Messenger" book by Galilei himself. Considering you really have to read ALL the information about this item before figuring this out, this borders on misrepresentation and I award the item with 1 star. As a children's book in itself, the book is mediocre.
