Use these activity sheets to plan and record science investigations. They include helpful prompt questions to help your children record the different stages in the investigation process.Tags in this resource: Filtration-2.pngSolvent.png

Science Investigation Recording Sheet (teacher made)

Air conditioning and refrigeration systems provide cooling (and heating) by circulating a refrigerant through a system containing a compressor, condenser, thermal expansion valve and an evaporator. The refrigerant gas is compressed, cooled and expanded to reduce its temperature and pressure, and evaporated to remove heat from living spaces or refrigeration systems.
