The greatest run-scorer in the history of cricket, Sachin Tendulkar

retired in 2013 after an astonishing 24 years at the top. The most celebrated Indian cricketer of all time, he received the Bharat Ratna Award - India's highest civilian honour - on the day of his retirement. Now Sachin Tendulkar tells his own remarkable story - from his first Test cap at the age of 16 to his 100th

International century

and the emotional final
farewell that brought his
country to a standstill.

When a boisterous
Mumbai youngster's
excess energies were
channelled into cricket,
the result was record-
breaking schoolboy
batting exploits that
launched the career of a
cricketing phenomenon.
Before long Sachin

Tendulkar was the

cornerstone of India's
batting line-up, his every

move watched by a
cricket-mad nation's
devoted followers.

Never has a cricketer
been burdened with so
many expectations;
never has a cricketer
performed at such a
high level for so long
and with such style -
scoring more runs and

making more centuries than any other player, in both Tests and one-day games. And perhaps only one cricketer could have brought together a shocked nation by defiantly scoring a Test century shortly after terrorist attacks rocked Mumbai. His many achievements with India include winning the World Cup and topping

the world Test rankings.

Yet he has also known his fair share of

frustration and failure - from injuries and early World Cup exits to stinging criticism from the press, especially during his unhappy tenure as captain.

Despite his celebrity status, Sachin

Tendulkar has always remained a very private

man, devoted to his family and his country. Now, for the first time, he provides a fascinating insight into his personal life and gives a frank and revealing account of a sporting life like no other.

Deixis as a field of research has generated increased interest in recent years. It is crucial for a number of different subdisciplines: pragmatics, semantics, cognitive and contrastive linguistics, to name just a few. The subject is of particular

interest to experts and students, philosophers, teachers, philologists, and psychologists

interested in the study of their language or in comparing linguistic structures. The different deictic structures – not only the items themselves, but also the oppositions between them – reflect the fact that neither the notions

of space, time, person nor our use of them are identical cross-culturally. This diversity is not restricted to the difference between languages, but also appears among related dialects and language varieties. This volume will provide an overview of the field, focusing on Romance languages, but also reaching beyond

this perspective.

Chapters on diachronic developments (language change), comparisons with other

(non-)European languages, and on interfaces with

neighboring fields of interest are also

included. The editors and authors hope that readers, regardless of their familiarity with

Romance languages,
will gain new insights
into deixis in general,
and into the similarities
and differences among
deictic structures used in
the languages of the
world.
