Blue Tattoo tells the harrowing story of this forgotten heroine of frontier America. Orphaned when her family was brutally killed by Yavapai Indians, Oatman lived as a slave to her captors for a year before being traded to the Mohave, who tattooed her face and raised her as their own. She was fully assimilated and perfectly happy when, at nineteen, she was ransomed back to white society. She became an instant celebrity, but the price of fame was high and the pain of her ruptured childhood lasted a lifetime. Based on historical records, including letters and diaries of Oatman's friends and relatives, *The Blue Tattoo* is the first book to examine her life from her childhood in Illinois—including the massacre, her captivity, and her return to white society—to her later years as a wealthy banker's wife in Texas. Oatman's story has since become legend, inspiring artworks, fiction, film, radio plays, and even an episode of *Death Valley Days* starring Ronald Reagan. Its themes, from the perils of religious utopianism to the permeable border between civilization and savagery, are deeply rooted in the American psyche. Oatman's blue tattoo was a cultural symbol that evoked both the imprint of her Mohave past and the lingering scars of westward expansion. It also served as a reminder of her deepest secret, fully explored here for the first time: she never wanted to go home.

stay out of trouble long enough to dedicate herself to being ladylike. But what fun would that be, anyway?

"In this provocative work full of intriguing female characters from tattoo history, Margot Mifflin makes a persuasive case for the tattooed woman as an emblem of female self-expression." —Susan Faludi *Bodies of Subversion* is the first history of women's tattoo art, providing a fascinating excursion to a subculture that dates back into the nineteenth-century and includes many never-before-seen photos of tattooed women from the last century. Author Margot Mifflin notes that women's interest in tattoos surged in the suffragist 20s and the feminist 70s. She chronicles: * Breast cancer survivors of the 90s who tattoo their mastectomy scars as an alternative to reconstructive surgery or prosthetics. * The parallel rise of tattooing and cosmetic surgery during the 80s when women tattooists became soul doctors to a nation afflicted with body anxieties. * Maud Wagner, the first known woman tattooist, who in 1904 traded a date with her tattooist husband-to-be for an apprenticeship. * Victorian society women who wore tattoos as custom couture, including Winston Churchill's mother, who wore a serpent on her wrist. * Nineteenth-century sideshow attractions who created fantastic abduction tales in which they claimed to have been forcibly tattooed. "In *Bodies of Subversion*, Margot Mifflin insightfully chronicles the saga of skin as signage. Through compelling anecdotes and cleverly astute analysis, she shows and tells us new histories about women, tattoos, public pictures, and private parts. It's an indelible account of an indelible piece of cultural history." —Barbara Kruger, artist

on a journey west, believing a prophecy that they would find the fertile “Land of Bashan” at the confluence of the Gila and Colorado Rivers. On February 18, 1851, a band of southwestern Indians attacked the family on a cliff overlooking the Gila River in present-day Arizona. All but three members of the family were killed. The attackers took thirteen-year-old Olive and eight-year-old Mary Ann captive and left their wounded fourteen-year-old brother Lorenzo for dead. Although Mary Ann did not survive, Olive lived to be rescued and reunited with her brother at Fort Yuma. On Olive’s return to white society in 1857, Royal B. Stratton published a book that sensationalized the story, and Olive herself went on lecture tours, telling of her experiences and thrilling audiences with her Mohave chin tattoos. Ridding the legendary tale of its anti-Indian bias and questioning the historic notion that the Oatmans’ attackers were Apaches, McGinty explores the extent to which Mary Ann and Olive may have adapted to life among the Mohaves and charts Olive’s eight years of touring and talking about her ordeal.

Reduced to begging and thievery in the streets of London, a thirteen-year-old orphan disguises herself as a boy and connives her way onto a British warship set for high sea adventure in search of pirates.

From an author praised for writing “delicious social history” (Dwight Garner, *The New York Times*) comes a lively account of memorable Miss America contestants, protests, and scandals—and how the pageant, nearing its one hundredth anniversary, serves as an unintended indicator of feminist progress. Looking for Miss America is a fast-paced narrative history of a curious and contradictory institution. From its start in 1921 as an Atlantic City tourist draw to its current incarnation as a scholarship competition, the pageant has indexed women’s status during periods of social change—the post-suffrage 1920s, the Eisenhower 1950s, the #MeToo era. This ever-changing institution has been shaped by

war, evangelism, the rise of television and reality TV, and, significantly, by contestants who confounded expectations. Spotlighting individuals, from Yolande Betbeze, whose refusal to pose in swimsuits led an angry sponsor to launch the rival Miss USA contest, to the first black winner, Vanessa Williams, who received death threats and was protected by sharpshooters in her hometown parade, Margot Mifflin shows how women made hard bargains even as they used the pageant for economic advancement. The pageant's history includes, crucially, those it excluded; the notorious Rule Seven, which required contestants to be "of the white race," was retired in the 1950s, but no women of color were crowned until the 1980s. In rigorously researched, vibrant chapters that unpack each decade of the pageant, *Looking for Miss America* examines the heady blend of capitalism, patriotism, class anxiety, and cultural mythology that has fueled this American ritual.
