That's what Stephen L. Baker attempts to sort out in *The Numerati*, a neologism he has coined for the computer scientists and mathematicians getting their hands dirty with our data. The book takes an admirably thematic approach and looks at developments across a broad spectrum of society, covering ways in which advancements have and will affect the worlds of work, commence, politics, medicine and romance.

The Numerati have infiltrated every realm of human affairs, profiling us as workers, shoppers, patients, voters, potential terrorists -- and lovers.

*Stephen Baker*

"The Numerati" is a book about math that won't cause liberal-arts majors to heave it across the room. The slender volume contains not a single esoteric Greek letter or mystifying equation. What's more, writer Stephen Baker artfully conjures up vivid images to explain what he's talking about and why a reader should care."
