The Paladin Prophecy is a full on action movie where "Bourne Identity" meets Harry Potter. I was immediately drawn into the action where Will West hits the ground running literally from mysterious black sedans. Will has always lived by a book of rules his Dad made for him. Will never preformed up to his abilities and always stayed below the radar.

The Paladin Prophecy is an exciting, engaging YA fantasy and the first in what I have a feeling, will be an awesome trilogy. For obvious reasons I would recommend to fans of Harry Potter, but it is worth noting that the two are completely different.

Bestselling author Mark Frost makes a triumphant return to fiction with this riveting World War II thriller, based on a shocking real-life German operation run by "the most dangerous man in Europe." Fall 1944. Germany is losing, and the Americans are starting to hope they'll be home for Christmas. Lieutenant Colonel Otto Skorzeny, "Hitler's Commando," famed for his daring rescue of the imprisoned Mussolini, has just received orders for Operation Greif: He is to assemble a new brigade of 2,000 men, all of whom speak English, and send them behind Allied lines disguised as GIs, where they will wreak havoc in advance of a savage new offensive. And from those men, Skorzeny is to select a smaller group, made up of the twenty most highly skilled commandos fluent in American culture, to attempt an even more sinister mission--the second objective--which, if completed, not only would change the course of the war, but would change the course of history. Filled with real characters and details only recently released by the United States military, *The Second Objective* is historical fiction at its most pulse-pounding, its most unpredictable, and its most compulsively readable.

Dark Brotherhood As the city of London slumbers, there are those in its midst who conspire to rule the world through the darkest and most nefarious means. These seven, seated in positions of extraordinary power and influence, marshal forces from the far side to aid them in their fiendish endeavor. *Force of One* In the aftermath of a bloody séance and a terrifying supernatural contact, a courageous young doctor finds himself drawn into a malevolent conspiracy beyond human comprehension. *All or Nothing* The future is not safe, as a thousand-year reign of pure evil is about to begin, unless a small group of stalwart champions can unravel the unspeakable mysteries behind a crime far more terrible than murder.

Ro murmurs into my ear. "Don't be afraid, Dol. They're not coming for us." Still, he slips his arm around me and we wait until the sky is clear. Because he doesn't know. Not really. Everything changed on *The Day*. The day the Icon appeared in Los Angeles. The day the power stopped. The day Dol's family dropped dead. The day Earth lost a war it didn't know it was fighting. Since then, Dol has lived a simple life in the countryside with fellow survivor Ro--safe from the shadow of the Icon and its terrifying power. Hiding from the one truth she can't avoid. They're different. They survived. Why? When the government discovers their secret, they are forced to join faint-

hearted Tima and charismatic Lucas in captivity. Called the Icon Children, the four are the only humans on Earth immune to the power of the Icons. Torn between brooding Ro and her evolving feelings for Lucas, between a past and a future, Dol's heart has never been more vulnerable. And as tensions escalate, the Icon Children discover that their explosive emotions-which they've always thought to be their greatest weaknesses-may actually be their greatest strengths. Bestselling author Margaret Stohl delivers a thrilling novel set in a haunting new world where four teens must piece together the mysteries of their pasts-in order to save their future.

They thought they were the only ones left. They were wrong. After the unexpected revelation at the end of the first book, Donna and Jefferson are separated. Jefferson returns to NYC and tries to bring a cure to the Sickness back to the Washington Square tribe, while Donna finds herself in England, facing an unimaginable new world. Can the two reunite and prevent an even greater disaster than the Sickness? This second book in The Young World trilogy will keep you at the edge of your seat.

From the co-creator of the landmark series, the story millions of fans have been waiting to get their hands on for 25 long years. The Secret History of Twin Peaks enlarges the world of the original series, placing the unexplained phenomena that unfolded there into a vastly layered, wide-ranging history, beginning with the journals of Lewis and Clark and ending with the shocking events that closed the finale. The perfect way to get in the mood for the upcoming Showtime series.
