Self Portrait Test and ...~~

Abstract. Online social networking (OSN) sites play many roles ranging from communication to entertainment. The current paper presents an analysis of the recently emerged OSN phenomenon of the selfie (self-portrait photographs of oneself). In two studies involving a total of 1296 men and women, we tested the prediction that selfie-sharing on various OSN sites (including Facebook) is positively related to social exhibitionism, extraversion, and self-esteem.

The Personality Type Portraits. There are sixteen distinct personality types in the currently most widely-accepted Personality Type model. Each type has its own characteristics which can be identified in individual personalities. We have created a profile of each personality type, which provides a guideline for understanding the similarities ...

~~Personality Portraits~~

A selfie has recently been defined as, “a self-portrait photograph of oneself (or of oneself and other people), taken with a camera or a camera phone held at arm's length or pointed at a mirror, which is usually shared through social media” (Sorokowski et al., 2015).
