First, Know Your Self. What explains extraordinary human achievement? When things are achieved against all odds? Whether you are an individual, team or organization, the key to human achievement lies in opening yourself up to introspection. Who am I? What am I good at? What do I want to do with my life? How can I get there? Next, understand the polarities in the personalities of yourself and others. The secret behind the power of polarities is that paradoxically they are intended to harmonize, not polarize. Their purpose is to balance, not disrupt each other. They then become an infinite inner source of growth and renewal that can be accessed by anyone, anytime, anywhere. Great achievements are grounded in the ability to harness the power of polarities and cover all the bases of the personality. This book uses a novel interpretation of Carl Jung's personality types to help you discover the answers to these questions. It can help you to: Understand your personality and its development Thrive in life's significant roles and relationships. Find the key to your genius Understand and take responsibility for your limitations Live your life with intention and have authentic impact Gain a sense of purpose, meaning and belonging Change and forge your destiny Be the best you can at what you do "The Power of Polarities is a lively and serious contribution to the literature on Jung's psychological types theory and its practical application. The emphasis on polarities is fundamental and salutary." Dr. Murray Stein, PhD, Jungian Analyst, Author, and former President of the International Association for Analytical Psychology.

Move from entrenched differences to common goals! All too often, education initiatives collapse because leaders fail to learn from the concerns of those charged with implementation. Acclaimed education coach Jane Kise demonstrates how polarity thinking—a powerful approach to bridging differences—can help organizations shift from conflict to collaboration. Readers will find: Ways to recognize polarities, map the positive and negative aspects, and channel energy wasted on disagreement toward a greater common purpose Tools for introducing and working with polarities Polarity mapping to help leaders improve processes for leading change and creating buy-in Ways to use polarity with students as a framework for higher-level thinking

University level text. Some complex problems simply do not have "solutions." The key to being an effective leader is being able to recognize and manage such problems. Polarity Management presents a unique model and set of principles that will challenge you to look at situations in new ways. Also included are exercises to strengthen your skills, and case studies to help you begin applying the model to your own unsolvable problems.

Before anything else, know your self It is invaluable to know your self. Who am I? What am I good at? Why am I here? Where do I want to go? How do I get there? Your compass on the journey called Life For everything you want in life, look inside first. There is only one you. Understand your personality type, learn about your strengths and limitations. Use that as a compass to navigate life. Be true to yourself, be true to your type. Thrive in life's significant roles We all strive to thrive in life's significant roles and relationships. Sometimes there is a breakdown, a misunderstanding or miscommunication. Or we feel we have chosen the wrong career. Instead of losing yourself, find yourself with the help of this guide. Gain clarity on your personality type Your personality type influences how you see yourself and the world. It is fundamental to what you like to do and what you are good at. Understanding it gives confidence and direction. The Spine of the Personality Understanding Light & Shadow, the conscious and unconscious dynamic of the personality. This is the key to your personal effectiveness and individual genius. "When there is development of both the superior and the inferior functions, we can speak of a 'spine' of consciousness that gives the personality backbone." - John Beebe, Energies and Patterns in Psychological Type, 2017 Study Guide to The Power of Polarities This is a forty page, full-color booklet that explains this novel approach to Carl Jung's theory of the personality. Four steps to discovering the Spine of your Personality Full-color diagrams of the

Conscious, Less Conscious and Unconscious personality Free, complementary personality profile "Excellent new way of looking at myself" - Chris F. Get your copy today! .

This book discusses the rise of polarity as a key concept in International Relations Theory. Since the end of the Cold War, until at least the end of 2010, there has been a wide consensus shared by American academics, political commentators and policy makers: the world was unipolar and would remain so for some time. By contrast, outside the US, a multipolar interpretation prevailed. This volume explores this contradiction and questions the Neorealist claim that polarity is the central structuring element of the international system. Here, the author analyses different historic eras through a polarity lens, compares the way polarity is used in the French and US public discourses, and through careful examination, reaches the conclusion that polarity terminology as a theoretical concept is highly influenced by the Cold War context in which it emerged. This volume is an important resource for students and researchers with a critical approach to Neorealism, and to those interested in the defining shifts the world went through during the last twenty five years.

AND is a resource for people who want to make a positive difference. By overcoming two obstacles: resistance to change and polarization. From a problem-solving perspective, either of these challenges could be overwhelming. Regardless of the size of the system that you want to change, this book guides you through a clear process: 1.Seeing: Is this an issue where And is required 2.Mapping: How can I see a more complete picture and respect alternative views? 3.Assessing: How are we doing with this polarity? 4.Learning: What can we learn from our assessment results? 5.Leveraging: What action steps will we take to make a positive difference? Reading this book will help you address resistance to your efforts to make a difference. Also, it will help you address chronic conflicts that become vicious cycles as both sides become more polarized.You will learn when and how to bring And into your efforts to make a positive difference. When done well, supplementing Or-thinking with And-thinking will help you convert the wisdom of those resisting change into a resource to support a more effective change. And-thinking will help you join polarized groups and convert a vicious cycle into a benefit for all. The results will benefit both groups and the larger system of which they are a part.

Energy work can be a bonding activity for couples (or triples, or other loving combinations), but no one generally talks about how that works in a power dynamic relationship. Polarities of Power shows how to use erotic or practical energy to help bond the relationship that is negotiated unequal by design. Just as Tantra uses the polarity of male and female to raise energy, practitioners of a power dynamic of any gender combination can use the dance of dominance and submission to raise energy that is equally as powerful, and celebrates the beauty of these consensual relationships.
