This report discusses several different approaches that support reforming health care services in developing countries. For some time now, health care services have been supported by government funds. As demands for improving health care services continue to increase additional demands will be placed on governments to respond. This, however, will not be easy. Slow economic growth and record budget

deficits in the 1980's have forced reductions in public spending. Alternative approaches to finance health care services are needed. Such possible changes could involve: decentralization of federal government involvement; the promotion of nongovernment involvement; the imposition of user fees; and, establishing health insurance. Finally, the role of the Bank in pursuing new financing strategies is discussed.

Robin Hemley's childhood made a wedgie of his memory,

leaving him sore and embarrassed for over forty years. He was the most pitiful kindergartner, the least spirited summer camper, and dateless for prom. In fact, there's nary an event from his youth that couldn't use improvement. If only he could do them all over a few decades later, with an adult's wisdom, perspective, and giant-like height . . . In the spirit of cult film classics like Billy Madison and Wet Hot American Summer, in Do-Over! Hemley reencounters papier-mâché, revisits his childhood home, and finally attends the prom -- bringing readers the thrill of recapturing a misspent youth and discovering what's most important: simple pleasures, second chances, and the forgotten joys of recess.

The authors of this volume explore the challenges of establishing democratic accountability and control over the military and other security establishments in countries which have either been the victims of authoritarian military rule or wracked by violent internal conflict. The book examines both successful democratic transitions and failed ones. A wide range of cases is covered, including Algeria, Bosnia and Herzegovina, Chile, the Congo, Ghana, Nigeria, Sierre Leone, South Africa, Sri Lanka, and Turkey. The possible role of regional interventions and institutions, notably in West Africa and the Balkans, is also examined.

Fire Dragon Meridian Qigong is a traditional Chinese internal alchemy method that embodies the spirit of the rising dragon, an auspicious symbol of transformation in Chinese culture. The form works directly on the acupuncture meridians, releasing areas of stagnation and bringing the physical and emotional body into a balanced state of well-being. This Qigong form implements special visualization and breathing techniques in addition to movements that imitate sparks arising from a bonfire and swirling upward like a spiraling dragon. Stoking our 'inner fire' melts away the 'ice', or the areas of blockage and disease, opens our energetic pathways and allows the smooth flow of Qi in our meridians. The Fire Dragon practice follows the traditional internal

alchemy process, where Jing (essence) transforms to Qi (vital energy), Qi transforms to Shen (spirit), and Shen returns to Emptiness. Fire Dragon Meridian Qigong is a key Qigong form for those seeking healing from cancer and other significant health challenges, and is the practice the authors turned to in order to transform the grief over their son's death. The book provides background information and a detailed description of the form itself, illustrated with calligraphy, meridian drawings, and photographs throughout.

THE BALINESE TWINS - Beautiful and exotic, they exchange an island paradise for the shabby squalor of London, and innocence for corruption. THE SICILIAN - Ricky Delgado strikes a devil's bargain with a blood goddess: 'Build my temple and bring me the souls of damaged people, and you will see what rewards I give.' THE COURTESAN - Elizabeth makes her living from men's desire. With a flick of the switch in her head, she feels nothing: no pain, no hate, no sorrow,
