tripping over the truth summary - naturereigns.com

Tripping Over The Truth Anyway, with the fact that there are at least some valid conspiratorial forces that keep cancer treatments off the market out of the way, let's get to the point. Cancer is mitochondrial cells — the ones that manufacture ATP (the bodies energy) — that have gone bad. Mitochondrial cells go bad all the time.

Tripping Over The Truth - Vitamin B17

Tripping Over the Truth: The Metabolic Theory of Cancer by Travis Christofferson. Ninety years ago, a German scientist named Otto Warberg put forward a theory of cancer that was to radically alter the way we think about this devastating disease. However, a change in thinking would not happen immediately. It would take many years before his theory finally gained ground.
