Latin America's Economy Will Return to Growth in 2021 ...

November 18, 2020. Latin America's economy is poised to recover in 2021. After logging its worst recession in recent history this year due to the Covid-19 blow, Latin America's economy is poised to recover in 2021 as foreign demand and domestic activity revive. That said, significant risks lie ahead, most notably subdued household incomes, concerns over enormous fiscal gaps, uncertainty regarding the pandemic's trajectory, and social upheaval.

How safeguarding the rainforest can be a source of wealth, growth and justice for communities in the biodiversity hotspots of Latin America. The Amazon rainforest, one of the planet's most important bulwarks against climate change, is disappearing at an alarming rate. Deforestation, unsustainable agriculture and cattle ranching, illicit crops and land grabbing are destroying this irreplaceable environment at a rate of over 3,000 square miles a year in Brazil alone.
