and immediately after the pandemic lockdown.

What is teaching like during a pandemic? How did teachers manage their emotional lives as colleagues became infected, hospitalised, and died? What did teachers actually do to bridge the gap in teaching and learning where schools and homes lacked electronic

resources? These are amongst the many questions on which this collection of teacher stories sheds light. Most of these are stories of hope, resilience, and enormous courage in the face of a deadly virus. Your faith in teachers and teaching will be restored after reading this book.
