Life is fleeting. It's so easy to not take advantage of every day, so easy to forget that we only have this one life. So easy to become overwhelmed in the minutia we can fail to see the big picture. It wasn't until I started living for the one life I have, the only one I will have, that I found enjoyment and happiness.

Jean-Paul Sartre was a man of staggering gifts, whose accomplishments as philosopher, novelist, playwright, biographer, and activist still command attention and inspire debate. Sartre ' s restless intelligence may have found its most characteristic outlet in the open-ended form of the essay. For Sartre the essay was an essentially dramatic form, the record of an encounter, the framing of a choice. Whether writing about literature, art, politics, or his own life, he seizes our attention and drives us to grapple with the living issues that are at stake. We Have Only This Life to Live is the first gathering of Sartre ' s essays in English to draw on all ten volumes of Situations, the title under which Sartre collected his essays during his life, while also featuring previously uncollected work, including the reports Sartre filed during his 1945 trip to America. Here Sartre writes about Faulkner, Bataille, Giacometti, Fanon, the liberation of France, torture in Algeria, existentialism and Marxism, friends lost and found, and much else. We Have Only This Life to Live provides an indispensable, panoramic view of the world of Jean-Paul Sartre.

Life is indeed a game that we all play to pass time; simply a series of days strung together, made up of how you planned or decided to spend the moments. Like any game how well it is played or whether life's circumstances are interpreted accurately, then used to the best advantage, makes losers and winners to varying degrees. Senseless insanity is alive and well within the world. The world is awash with unruly forces, that if not intent upon harming you do desire to become a destabilising force, either temporarily or over the long term. We are all participants in a charade, how life evolves and turns out all depend on how well the game is played. It is not wise or ideal to treat life like a game of chance, a random roll of the dice that can determine unpredictable outcomes. The cost of success is the careful application of well thought out concepts and ideas. Like any game preparation is critical; understanding the rules, knowing how to manipulate the dynamics at play efficiently to ones own advantage, understanding the intricacies of the rules and how to capitalise upon or create opportunities, pursuing whatever circumstances are present to maximise whatever potential exists to the best advantage. The potential opportunities in life are only limited by the inability to firstly comprehend them and secondly to fully utilise personal abilities to maximise the potential that is available. Don't wait for special times to evolve, rather create them in accordance with your true desires to experience what you wish to make real. Much like any game, the game of life has things that can be obtained, or things that can be lost. How the game is played, the value of the stakes, the opposing factions all come to dictate an outcome, be that favourable or lacking any resemblance of being lucky. A life lived based upon any reliance on luck or fate being favourable is tempting only to the over optimistic, or those extremely lucky ones or who were fortunate in the past and believe that good fortune will continue in the future. While it takes resources to control the world, the control of your own specific world environment is really within your potential to achieve. How you choose to control your world, as well as to what extent your desires are put into action, determine whether your life will meet your wishes or not. The amount of thought and energy you exhort, the persistence of that effort, all comes to determine whether and to what degree what you want is what you actually get. In life you may win or loose at times, it's basically just like playing a game; the right mentality is chancing the wheel of life by trusting and ensuring you will win just the same.

NALI By Esther Henry In an era of darkness, mystery, tropical jungles and cannibalism, Nali tries to buck the ancient traditions, only to find herself deeply entrenched in them. As a young girl full of dreams, she is given to a tribal elder in marriage and quickly learns that her girlhood dreams could be shattered overnight. The rain forest held a secret refuge that only Nali knew, where she took her dreams and her delusions. Will she be forced to succumb to a subservient role the rest of her life, or can she overcome the hopelessness that comes with isolation, ignorance and tradition? Deep in the heart of New Guinea lies the village of Mendoka, beautifully camouflaged from the rest of the world. Although the village has yet to be discovered, the outside world would soon have an influence on their lives. An interruption to their peaceful simplicity would both terrify them and cause them to search for answers. Readers will be able to follow the lives of those who lived in a much simpler time and become immersed in the culture that controlled their everyday existence.

The pressure of everyday living has put people in a quandary. It put both the strength and weaknesses of individuals to the fore, and this made life--everybody would agree--complicated. "Why me?" people would ask whenever they were confronted by difficulties that would change their life temporarily or permanently. While some leave everything to fate, others had resolved to cope and hope for the better. Life is hard for Dawn L. Not only does she have a stubborn and callow husband, who has emotionally abused her, she also birthed two children with special needs--physically and psychologically. It took a lot of love, understanding, and dedication to manage her situation, but she pulled it through, although at one point she wished, "If only life were so simple â € ! " While she copes with the challenges before her, L turned to writing short stories for children, and later was inspired to write the story of her own life--a tale of inner strength and unconditional love.
