In this first book of a new historical fiction series, a crack Roman legion invades Britain in this brazen tale of military adventure, political intrigue and heroism. It is the year 42 AD, and Centurion Macro, battle-scarred and fearless, is in the heart of Germany with the Second Legion, the toughest in the Roman army. Cato, a new recruit and the newly appointed second-in-command to Macro, will have more to prove than most. In a bloody skirmish with local tribes, Cato gets his first chance to prove that he's more than a callow, privileged youth. As their next campaign takes them to a land of unparalleled barbarity - Britain - a special mission unfolds, thrusting Cato and Macro headlong into a conspiracy that threatens to topple the Emperor himself. Filled with the kind of historical details that brings the adventure to life, Simon Scarrow's *Under the Eagle* is destined to become a military fiction classic.

For many hundreds of years Kazakh nomads have been grazing their livestock near the Altai Mountains in western Mongolia. The Altai Kazakhs are unique in their tradition of using golden eagles to hunt on horseback. The lifestyle of these hunters, known in Kazakh as *burtkitshis*, is changing rapidly, and over the last few years the award-winning photographer Palani Mohan has spent time with these men and their families, documenting a culture under threat. The special bond between a hunter and his eagle begins when the hunter takes an eagle pup from a nest high on the rock face. The pups are usually about four years old (a golden eagle can live to 30 years of age). It's important that the pup has learned to hunt and is not still dependent on her mother; but neither can she be too old nor experienced, or she will not learn to live with humans. The hunters take only female pups from the nest, as females are larger and more powerful and aggressive than the males. Adult female golden eagles can have a wingspan of up to 9 feet, and weigh over 15 pounds. The eagle pup gradually learns to accept food from the hunter, and once trust has been established, the hunter begins to train the bird. The hunters describe the eagle as part of their family. The eagle takes pride of place in the home most of the time except during the day in the summer months or the warmest part of the day in the winter months. While all the men in the family handle the eagle, only the man who took her from the nest hunts with her. Hunting takes place in winter, when temperatures can plummet to minus 40 degrees Fahrenheit. The birds are carried in swaddling, which the hunters claim keeps them both warm and calm. The strong bond between hunter and eagle is strengthened by the amount of time they spend together. Hunting trips can last many days, as the hunter and eagle trek up to a mountain ridge to obtain a good view across the landscape. Once the prey – usually a fox – is spotted, the hunter charges towards it to flush it into the open, then releases the eagle to make the kill. Hunters traditionally wear fur coats made from the skins of the prey their eagle has caught. The relationship between hunter and eagle typically lasts six to eight years, then the eagle is released back into the wild to breed. One hunter tells Mohan: 'You love them as your own, even when you set them free at the end.' In his book, which comprises an introductory essay and 90 dramatic duotone images, Mohan explains how the *burkitshis* are slowly dying out. Rather than endure the brutal winters, their children choose to move to the capital, Ulan Bator, for a better way of life. There are also fewer golden eagles in the Altai Mountains. Although the 'Golden Eagle Festival' takes place every October to showcase the ancient art of hunting with eagles, attracting tourists from across the world, there are only between 50 and 60 'true' hunters left. This book is therefore a timely, important record of these proud men and their magnificent eagles in a remote, unforgiving part of the planet.

The bald eagle is the national symbol of the United States, but the bird almost disappeared from North American skies. *Bald Eagle* explores how the species was once threatened by hunting and pollution, explaining how public awareness and scientific efforts have helped keep these iconic birds soaring. Easy-to-read text, vivid images, and helpful back matter give readers a clear look at this subject. Features include a table of contents, infographics, a glossary, additional resources, and an index. Aligned to Common Core Standards and correlated to state standards. Core Library is an imprint of Abdo Publishing, a division of ABDO.

When Centurion Macro arrives on the shores of Britain to take part in the Emperor Claudius's invasion in the summer of AD 43, he knows he will be facing one of the toughest campaigns of his battle-scarred career. But nothing could have prepared him for the brutality and bravery of the British warriors. In a series of bloody battles, Macro and his young subordinate, Optio Cato, and the desperately outnumbered Roman army, must find and defeat the enemy before he can grow strong enough to overwhelm the legions. But the Britons are not the only foe facing Macro and Cato. A sinister organisation opposed to the Emperor is secretly betraying the brave men of the legions. And when rumours of an assassination attempt coincide with the Emperor's arrival on British soil, the soldiers realise they are up against a force more ruthless than their acknowledged enemy, and that time is running out if they are to prevent Claudius's glorious victory turning to disaster.

IF YOU DON'T KNOW SIMON SCARROW, YOU DON'T KNOW ROME! THE EAGLE'S PREY is the thrilling fifth novel in Simon Scarrow's bestselling Eagles of the Empire series. A must read for fans of Bernard Cornwell and Conn Iggulden. Praise for Simon Scarrow's gripping historical novels: 'Ferocious and compelling' Daily Express Britannia, AD 44. The time has come to claim Britain for the Empire. Centurions Cato and Macro are preparing for what their leaders say will be the final battle against those natives refusing to accept the civilising force of Rome. The British savages will surely stand no chance against the might of the unstoppable Roman army. But young Cato is more concerned about hot-headed cohort commander, Maximius, than about the enemy, and with Roman troops being brutally slaughtered, even grizzled veteran Macro is having doubts about the promised ease of their success. Will they be victorious - or will the battle cost both of them more than they could ever imagine?

This book captures the beauty of eagles and offers young readers glimpses of their habitat and behaviour . It looks at how they choose nesting sites, rear their young, and capture prey. '
