Wildlife Department | Punjab Portal
Punjab has 12 natural wetlands and 9 manmade wetlands covering an area of 8.39 sq.km. and 147.39 sq.km, respectively. Harike, Kanjli and Ropar are three major wetlands and recognized as wetlands of International significance under Ramsar Convention.

Biodiversity in Major Ecosystems of Punjab
Natural habitats for wildlife are severely limited because of intense competition from agriculture. Even so, many types of rodents (such as mice, rats, squirrels, and gerbils), bats, birds, and snakes, as well as some species of monkeys, have adapted to the farming environment. Larger mammals, including jackals, leopards, wild boar, various types of deer, civets, and pangolins (scaly anteaters), among others, are found in the Siwaliks.

The state animal of Punjab is the black buck, housing the largest population of the species in one of its wildlife sanctuaries. Let us look at the top five national parks or wildlife sanctuaries of Punjab. 1. Abohar Wildlife Sanctuary. Located in Ferozepur district, the Abohar wildlife Sanctuary is renowned for its legacy of wildlife conservation. It is famous because of the way local Bishnoi community got together to protect the State animal, the Black Buck.
