Mole, Water Rat, Badger, and the mischievous Toad live a quiet life on banks of the River Thames with the rest of their animal friends. But Toad tends to get into trouble, and his passion for cars eventually results in his being caught and kept a helpless prisoner in the remotest dungeon of the best-guarded castle in all the land. Dressed as a washerwoman-and with some help from his friends-Toad manages to escape the castle and begins his journey home to Toad Hall. The Wind in the Willows is a book for those "who keep the spirit of youth alive in them; of life, sunshine, running water, woodlands, dusty roads, winter firesides." So wrote Kenneth Grahame of his timeless tale of Rat, Mole, Badger, and Toad

Nothing's been the same since Bun Bendle dived off a quay and hit his head on a rock. What he can't bear to tell anyone is that as well as his sight, the accident seems to have wiped out parts of his memory. In his despair, he contemplates suicide.

For if Elliot and Virgo don't track down the retired Zeus and the rest of the Olympians and help them catch Thanatos, mortals and gods alike won't be long for this earth. Elliot Hooper's life just got a whole lot more LEGENDARY.

Around the world, countries are searching for ways of making their schools more effective for all children and young people. This book offers a new way of thinking about how to address this challenge. It sees improvement as requiring a collective effort that involves contributions from all members of a school community. Crucial to this is the idea of ethical leadership. Promoting Equity in Schools is written by a team of academic researchers who had a most unusual opportunity to work with a network of schools over three years, experimenting to find more effective ways of including hard to reach learners. Bringing together practitioner knowledge and ideas from research carried out from a variety of perspectives, the authors provide rich accounts of what happened when the schools attempted to become more inclusive and fairer. In so doing, they throw light on the challenges this presents for school leaders. The accounts presented in the book are located in Queensland, Australia, where the school system faces significant difficulties in relation to equity that resonate with similar difficulties around the world. These difficulties relate to policies that emphasize high-stakes testing and school choice, which tend to promote increased segregation, to the particular disadvantage of young people from low income and minority backgrounds. The arguments presented suggest that even where worrying policies are in place, with leadership driven by a commitment to equity, schools can still find space to develop more equitable ways of working.

Imagine a young boy who has never had a loving home. His only possessions are the old, torn clothes he carries in a paper bag. The only world he knows is one of isolation and fear. Although others had rescued this boy from his abusive alcoholic mother, his real hurt is just beginning -- he has no place to call home. This is Dave Pelzer's long-awaited sequel to A Child Called "It". In The Lost Boy, he answers questions and reveals new adventures through the compelling story of his life as an adolescent. Now considered an F-Child (Foster Child), Dave is moved in and out of five different homes. He suffers shame and experiences resentment from those who feel that all foster kids are trouble and unworthy of being loved just because they are not part of a "real" family. Tears, laughter, devastation and hope create the journey of this little lost boy who searches desperately for just one thing -- the love of a family.
